ENCLOSURES (NO. & TYPE)

REMARKS

50X1-HUM

1. Individual single-engine aircraft were parked in front of the hangars of the PILSEN (W 50/L 04) airfield and in the woods. Individual fighters, probably Me-109s, made local flight.

2. Biplanes circled the adjacent airfield of the ZAPADOCESKY-AERO Club.

Comment:

no twin-engine aircraft but only fighters were apparently parked at the airfield on 12 September 1949. Possibly the bomber aircraft were only temporarily parked at the field. It is considered credible that the PILSEN airfield is occupied by a fighter regiment, presumably the 4th Ftr Regt.
